## PREAMBLE

The Examination system at M S Ramaiah University of Applied sciences boasts of fairness and transparency in all the examination activities as it caters to its most important stakeholders of the University, the students. The Examinations are conducted by abiding to the guidelines prescribed by the regulatory bodies like UGC, AICTE, DCI and PCI.

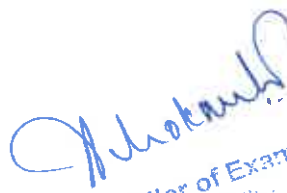

The annual report summarizes the Examinations conducted, from the pre-examination activities like the timetables to the declaration of results, pass percentage of students, the examination related grievances and its redressal. In accordance with the academic regulations of all the programmes of the University, the Examinations were coordinated by the respective Faculty with the oversight of the Controller of Examinations of the University.

The Government of Karnataka allowed the Universities to conduct all postgraduate and final-semester undergraduate classes in offline mode. The university classes were started in offline mode from 4<sup>th</sup> October 2021. Classes for these students were conducted in hybrid/blended mode adhering strictly to all COVID-19 Standard Operating Procedures (SOPs) from 4<sup>th</sup> October 2021.

University conducted the examinations for the first time for the programmes like B.Sc.LL.B(Hons), B.Sc in Economics, Psychology ,Sociology and Data Science and Analytics.

The University received a total of 01 application from a student requesting revaluation of the answer scripts. After revaluation, the result was declared and notified to all the stakeholders.

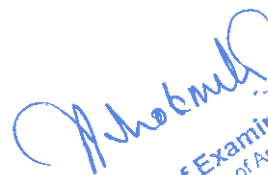

The 7<sup>th</sup> Convocation was held on 16<sup>th</sup> February 2023 in a virtual mode and a total of 1678 students graduated. A total of 14 PhD degrees were awarded. In addition, during this Convocation, gold medals were awarded to 14 PG and 20 UG students, whereas silver medals were awarded to 14 PG and 19 UG students. The best dissertation awards were feted on 09 students.

### PROCEEDINGS OF THE EXAMINATION GRIEVANCE REDRESSAL COMMITTEE

A meeting of the Examinations Grievance Redressal Committee (EGC) was held under the Chairmanship of the Pro-Vice Chancellor of the University on 20.6.2022 at 2.30pm in the S1 board room of the university. The following members attended:

<i>Name</i>	<i>Designation</i>	<i>Role</i>
Prof. Govind Kadambi	Pro Vice-Chancellor, Research	Chairperson
Dr. Soma Chaki	Professor/BT	Member
Prof. Ashok Meti	COE	Member Secretary

At the outset, the member Secretary Prof. Ashok Meti, the Controller of Examinations welcomed the members of the EGRC committee and informed them that the university had received applications from students regarding Examination related grievances. He informed the committee that all the applications were to be reviewed and the students must be heard regarding their grievances.

The details of the applications received for the Semester End examinations of the year 2021-22 is listed in the table below.

Student Name	University Register No.	Course code & Title	Nature of grievance
Madhulika Raut	21LABT018020	18BTC113A Biostatistics	Dissatisfied with overall score in the SEE

The student named Madhulika Raut wanted improvement in the overall scores in the subject of 'Biostatistics'. On being asked about her grievance she informed that she wanted to get her scores improved and hence had applied for revaluation. On further deliberations and discussions the committee granted her request.

## 7th Annual Convocation Address – 16<sup>th</sup> February 2023

Members of Board of Governors, Members of Board of Management, Members of Academic Council, Deans of various Faculties, Heads of Departments, Members of Faculty and Staff, Esteemed invitees & guests, Members from electronic and print media, and most importantly my dear graduating students, their proud parents and guardians present here.

**Namaskar!**

I am very happy to be with you and to share your joy on this memorable occasion. It is my pleasure to be here on 7th Convocation of M S Ramaiah University of Applied Sciences, witnessing the immense potential gathered here today. Since 2014, the M S Ramaiah University of Applied Sciences (RUAS) has been imparting knowledge and skills to the young minds, the future of our country and has been making a meaningful contribution to the society and the country. Graduation is the culmination of garnered knowledge, acquired skills and proven proficiency in the academic endeavour of one's choice. I learnt that RUAS has so far conferred 4626 degrees and in today's convocation 1866 degrees will be conferred on the students. On this momentous occasion of 7th Convocation, I congratulate all the Graduates, Medal winners and their proud parents & teachers, faculty and staff of the University.

Dear students, Convocation is a special day in the academic calendar of any institute, which marks the completion of an important phase in your academic life. You all must have worked hard, to acquire knowledge, technology and skills through various courses offered by the University. On this significant day in your life, you would be experiencing great joy to see your perseverance, hard work and commitment being realized into achievement of your goals and objectives. Today opens a door to an exciting world that awaits you. You will be an important part of the nation building process through your respective capabilities that you have acquired at the University

and elsewhere. The graduation ceremony is a bridge between dreams and reality. But before you embrace reality, I must remind you to be grateful to the Almighty for bestowing you with courage and skills to overcome challenges.

This is also a day of fulfillment for your parents, who invested their hard earned money and efforts to make sure that you receive the best of education that leads to a better future for you. This day, therefore, belongs to them in equal measure. I also compliment the dedicated and committed faculty members of this institution who worked hard, to impart quality education to build the knowledge base, develop skills and inculcate values in their students to take our country forward. The knowledge and the values you imbibed here, will guide you wherever destiny will take you in your future endeavours. I wholeheartedly wish you all to grow up to achieve great success, name, and fame and earn a grand living for themselves. But at the same time, I wish you to be good human beings. Make India and the world a better place to live in. We rely on you and this country has confidence in you

In today's world, the meaning of the word 'self-reliance' has changed. India's fundamental thinking and future growth provides a ray of hope to the world. India's culture and tradition speaks of self-reliance, and the soul is Vasudhaiva Kutumbakam, which means "The World Is One Family." India's self-reliance is rooted in the happiness, cooperation, and peace of the world. On this day, I wish to reiterate the inspiring words of our Honorable Prime Minister, spoken on Independence Day, for achieving development for our country. He urged the youth of India to devote their 25 years of life to the nation's development, to take pride in our heritage, and fulfill their duties to achieve global harmony. Aatmanirbharata and education combined with our rich cultural heritage are the ways to achieve the grand goals of our country. I quote the words of wisdom from Nobel laureate Sir C V Raman, who said "When we import, we not only pay for our ignorance, but we also pay for our incompetence". His thought motivates us to make the self reliant India.

Presently, India is aiming to become "Aatmanirbhar" in critical technologies through the Make in India program and minimize import dependency. The country has become self-reliant in many defence technologies and is confident that existing technological gaps in certain critical, advanced technologies will be overcome in the next few years. Development of advanced technologies and systems is the only way to become a world-leading exporter of defence equipment. The synergistic approach between Academia, R&D organizations and Industries is currently being pursued in the research, development, and manufacturing of innovative, next-generation defence equipment. R&D organizations are working on development of systems through applied and translational research, in which industry is participating in a big way.

The future defence manufacturing ecosystem envisaged by the Indian government will encompass defence technologies that will be conceived, designed, developed, tested, and manufactured completely in India. To achieve this goal, the government is creating various platforms where stakeholders from the armed forces, defence R&D establishments, industries, startups, MSMEs, and academia can interact and work together. Furthermore, the government has launched various initiatives to encourage academia and industries to bring their capabilities directly to the attention of the services, with support from defence R&D. Now, in the budget announcement, good percentage of the defence research budget is allocated to the academia, industries, and startups.

Innovation is taking place in all aspects of our life. Artificial Intelligence (AI) and Industry 4.0 (Internet of Industrial Things) are making inroads in technology. Utilizing these changes to improve our lives must be our goal. I firmly believe that the youth of our country will surely innovate, make our country strong. Academic institutes must become the hubs for fostering innovation and

entrepreneurship. Dedicated laboratory spaces must be created in collaboration with research institutes to enable students to get valuable experience. Joint programs must be formulated with other academic institutions and research organizations to propel research in identified areas. Focus must be laid on setting up incubation, innovation, and research centers within the campus for studies on futuristic areas of technology. Proper mentoring by experts as and when needed must be provided.

As you are all aware, Education, Employment, Entrepreneurship, and Excellence are the drivers of success in the 21st century. Education would fetch you employment commensurate with your skills and academic calibre. Entrepreneurship is a subjective trait, one that is solely dependent on how focused and single-minded a person is, to follow his/her passion and excel in the field of choice. The passion to be job provider, not a job seeker, the passion to provide solutions to challenges - this makes all the difference. Meeting challenges of the future will require you to constantly innovate for excellence. While 'creativity' involves 'thinking' about new things, 'innovation' is about 'doing' things differently. As nation builders, we have a great responsibility towards the society. We must collectively address the challenges by providing innovative solutions. We have to continuously strive to improve the way we lead our lives. Excel in whatever task you take up. Do what is required. Do not rest; keep working in a focused manner. You will excel!

Dear students, while you are assets for this country at the same time you bear great responsibility towards it. You are now the flag-bearers of our great nation who must work hard and pass on the legacy to the generations to come. Once again, I congratulate the graduating students on their degrees and wish you all the very best in all your future endeavors. Let us join hands to build a strong India.

I would end by quoting Bharat Ratna Dr APJ Abdul Kalam, who said "A country's economic or military strength alone will not make it strong; what is needed is a sustainable, intellectual society built by the youth imbued with values." Let us, together, work for a strong and self-reliant India.

**Jai Hind**
