MSRUAS has a good number of highly qualified and experienced full-time faculty members. The faculty members are appointed based on the UGC guidelines. At the professional front the university provides ample opportunity for professional growth through various faculty development programs. In addition, faculty members are encouraged to take up training from external agencies for skill enhancement. Seed money is given to faculty to enhance their research, along with ample support and mentoring to apply for extramural research funds. At the personal level employee welfare is taken care of by competent salaries, health insurance, performance rewards and other benefits. In addition, several programs are conducted for the mental and physical well-being of all employees. Overall, all these features enhance employee retention and hence a long-term career for teachers. It is further submitted that the MSRUAS was established only in the year 2014.
